- cld us 6/6, left msg
- I returned call 6/6, she asked how we could tell that it really was new money in their account, not just our money from previous payments or same match used every time. I explained I wasn't sure how Secretary reviewed it but that they had to certify it was "new money" and that full matching funds were used. She said ok, that obviously they weren't going to do that but wanted to be able to explain to board. Also asked how long they had to get all money. I explained through 2007, June 30. I explained to allow 30 days processing time so no later than May 2007.
